SYRI AI

Your Money. Your Intelligence.

Turning Financial Data into Financial Intelligence.

1. Problem Statement

Traditional expense trackers focus mainly on recording transactions, leaving users with limited insights into spending behaviour, future expenses, and savings opportunities. Managing personal finances requires more than tracking money; it requires intelligent analysis and informed decision-making.

2. Proposed Solution

SYRI AI is an AI-powered Personal Financial Intelligence Platform that transforms financial data into actionable insights. By combining Machine Learning, predictive analytics, and conversational AI, it helps users monitor expenses, forecast spending, understand financial behaviour, and make smarter financial decisions.

3. Core Features

- **Smart Expense Tracking:** Organizes and categorizes income and expenses.
- **Intelligent Budgeting:** Monitors budgets and provides spending alerts.
- **Expense Forecasting:** Predicts future spending using Machine Learning.
- **Savings Prediction:** Estimates potential savings based on financial patterns.
- **Anomaly Detection:** Identifies unusual spending behaviour.
- **AI Financial Advisor:** Provides intelligent financial insights and recommendations.
- **Financial Analytics:** Interactive dashboards and reports for better financial visibility.

4. AI Integration – Gnani AI

SYRI AI integrates Gnani AI technologies to enhance accessibility through voice-enabled interaction.

- **Vachana:** Conversational AI integration for intelligent financial assistance.
- **Prisma:** Speech-to-Text (STT) for voice-based input.
- **Timbre:** Text-to-Speech (TTS) for spoken AI responses.

Technology Stack: Python, Flask, SQLite, SQLAlchemy, Pandas, NumPy, Scikit-learn, HTML, CSS, and JavaScript.

5. Innovation & Expected Impact

SYRI AI goes beyond conventional expense tracking by combining predictive financial intelligence with AI-powered assistance. It aims to improve financial awareness, identify spending irregularities, encourage better savings habits, and support informed financial decisions.

OUR VISION

Don't just track your money. Understand it. Predict it. Make it work for you.
